Kitchen Update:

It does the heart good to see something going on in spite of the pandemic!

Tuesday morning we were able to pour the floor for the kitchen! 79 yards of concrete, finished by dark and hardly any rain (a miracle for the jungle). Not only was the floor poured but the support columns for the roof were set. That means, as you can see in the picture, we have already started putting up the roof! Your generous gifts of close to \$40,000 have allowed us to get this far. For those who gave - Thank you so much! For those of you who missed the first round of opportunity - don't worry we still need your help! It will cost \$35-\$40,000 to finish this project. Let us know how you would like to be involved.

In our Friday zoom meeting with our pastors and leaders we concluded that God is showing us that we must live what we preach, in spite of the circumstances. One pastor who is bi-vocational recently had to give up the store front they were renting for the church and lost his job. When asked what he will do, he replied that God's call on his life had not changed! Life is tough in Ecuador, but God's love is unending!
